Police: Off-Duty Memphis Officer Fatally Shot

(AP) An off-duty police officer died Sunday after being shot multiple times, the fourth Memphis police officer to be fatally shot in slightly more than four years, authorities said. Memphis Police Director Toney Armstrong said 31-year-old Terence Olridge was taken to the Regional Medical Center, where he later died. Officers got a call around 1 p.m. about a shooting at a home in the Memphis suburb of Cordova, Armstrong said. A male suspect is in custody, but Armstrong didn't say whether the person has been charged. Armstrong said the investigation is ongoing and that "details are sketchy." Relatives of the officer could be seen crying outside the hospital. Police blocked the street in front of the house where the shooting happened. A plainclothes detective spoke with a neighbor and uniformed officers also were on the scene. Olridge joined the department in September 2014. He had a fiancée who is four months pregnant, Armstrong said. Olridge is the fourth Memphis police officer to be fatally shot in slightly more than four years. Dozens of people took to Facebook to offer condolences and prayers for Olridge's family. Postings on the Blue Lives Matter Memphis page also called for support for the Memphis Police Department, which has had two officers shot to death in about 2 ½ months.

International News – Significant Events

Islamic State Figures Killed in Air Strike; Baghdadi Not Believed Among Them

(Reuters) Eight senior figures from Islamic State were killed in an air strike while meeting in a town in western Iraq, but the group's reclusive leader Abu Bakr al-Baghdadi did not appear to be among them, residents of the town and hospital sources said. Iraq said on Sunday its air force had hit the meeting and had also struck a convoy that was carrying Baghdadi to attend it. It said Baghdadi had been driven away from the convoy in an unknown condition. The Iraqi military's announcement was the latest unconfirmed report of the possible death or injury of Baghdadi, who has survived a year of U.S.-led air strikes and multi-sided wars in two countries since proclaiming himself caliph of all Muslims after his forces swept through most of northern Iraq last year. A Twitter site which publishes statements from Islamic State said "rumors" that an air strike had targeted Baghdadi were false. A U.S. military official in Baghdad, speaking on condition of anonymity, said the United States has not seen any indications Baghdadi was killed or injured during the operation. "Iraqi air forces have bombed the convoy of the terrorist Abu Bakr al-Baghdadi while he was heading to Karabla to attend a meeting with Daesh commanders," the Iraqi military said in a statement.

SITUATION SUMMARY

Castella Water Tank Rupture, Shasta and Siskiyou Counties

- Per Cal OES IDO: The community of Castella had a water tank rupture on 10/08/15. They are currently under a boil water order with samples expected to be taken on Monday for testing. State Water Board Division of Drinking Water is aware of the situation.

City of Yreka Water Main Break, Siskiyou County

- Per Cal OES IDO: A water supply line suffered a break on 10/09/15. The city is currently under a boil water order. Per State Water Board Division of Drinking Water, water test sample results were anticipated yesterday. Fairchild Medical Center is currently operating from potable water trucks.

Cal OES Activation Status

- The Cal OES State Operations Center (SOC) transitioned to Joint Field Office (JFO) operations with FEMA to support recovery operations.

Cal EOC Incident – 2014 Drought

- SOC / Inland REOC remains activated in support of 2014 Drought

Weather of Concern

- No significant Weather Watches or Warnings are in effect.

Active Weather Warnings, Watches and Advisories by County:

WEATHER

WEATHER SYNOPSIS BY REGION:

NORTHERN CALIFORNIA AND CENTRAL COASTAL AREAS:

Eureka Weather:

A warming and drying trend can be expected through much of the workweek. Temperatures will reach well above normal values by Tuesday and Wednesday for interior locations.

Medford Weather:

High pressure aloft will build over the forecast area through at least Thursday, and this will lead to increasingly hot conditions over much of the region this week. Many record highs may be within reach this week, especially on Thursday. Some cooling is expected on Friday, especially at the coast. The forecast area can expect some rain and cooler weather over the weekend.

Reno Weather:

Strong high pressure will remain over northeast California and western Nevada through midweek, bringing well above average to near record temperatures along with mainly light winds. Low pressure moves into California and Nevada Thursday and Friday for cooling temperatures and a chance for showers.

San Francisco Weather:

Warm weather is forecast through Tuesday along with dry conditions in most areas. A low pressure system currently located west of the Baja Peninsula will move into southern California by the middle of the week. This low will bring a chance of showers to areas south of San Jose as early as Tuesday afternoon and continuing through Thursday. The best chance of showers in these areas will be on Wednesday and Wednesday evening, when there is also a chance of thunderstorms. The next weather system will bring rain chances to the northern part of the forecast area on Saturday and Saturday night.

WEATHER

WEATHER SYNOPSIS BY REGION:

CENTRAL CALIFORNIA AND SOUTHERN SAN JOAQUIN VALLEY:

Sacramento Weather:

Warm and dry weather continues through at least midweek. A weather system moving up from southern California may bring a few showers south of Interstate 80 later in the week.

Hanford Weather:

High pressure will gradually break down as a weather system moves north from Baja bringing a chance of showers Tuesday to the Sierra and becoming more widespread across the central California interior Wednesday through Friday. There will be a brief break on Saturday before a colder system drops in from the eastern Pacific Saturday night and continues through Sunday night with a slight chance of showers across the central California interior.

SOUTHERN CALIFORNIA:

Los Angeles Weather:

Today will be another hot day across much of the region. An upper low moving toward the region will bring a cooling trend through midweek, with temperatures back down to near normal levels. There is a slight chance of showers and thunderstorms Wednesday through Thursday night, possibly lingering into Friday in the mountains. Another trough may bring showers to the region for the second half of the weekend.

Extreme Southwestern California including Orange, San Diego, Western Riverside and Southwestern San Bernardino Counties:

High pressure aloft will continue well above average high temperatures today. Weak offshore flow will bring locally gusty east winds to 25 mph near the coastal foothills this morning. A low pressure system to the southwest will move slowly inland through central and southern California Thursday and Friday, moving into Arizona Saturday. This will bring a chance of mainly afternoon and early evening showers and thunderstorms, mainly to the mountains and deserts with coverage and chances of a little greater Wednesday night into early Friday. A second low pressure system from the northwest could bring additional showers and thunderstorms for Saturday night into early next week.

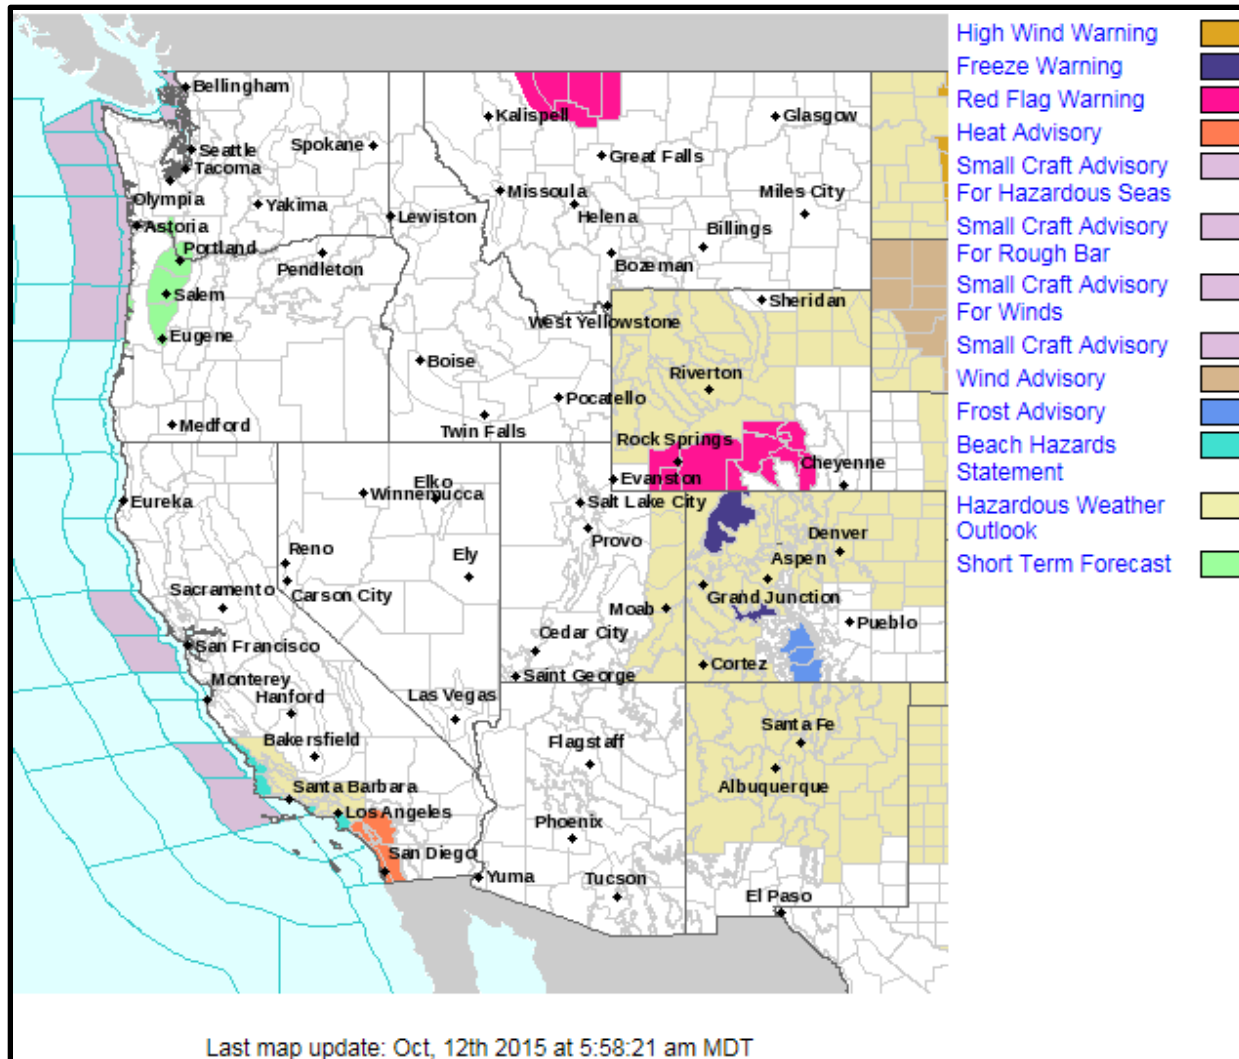

Southeast California Weather:

A strong high pressure system is forecast to build over the region through Wednesday. This will result in partly cloudy skies and unseasonably warm afternoons. The high pressure system is forecast to weaken late Wednesday followed by a gradual cooling trend Thursday through Sunday, along with a chance of showers and thunderstorms.

CAL OES 2014 DROUGHT

Cal EOC Incident – 2014 Drought

- The SOC is activated in support of the Drought State of Emergency and continue to monitor the situation.
- The Governor issued Executive Order B-26-14 on 09/19/14, to streamline relief efforts for families with drinking water shortages due to drought, specifically through the California Disaster Assistance Act, to provide temporary water supplies to households without water for drinking and/or sanitation purposes.
- The Governor issued Executive Order B-29-15 on 04/01/15 which announced actions that will save water, increase enforcement to prevent wasteful water use, streamline the state's drought response and invest in new technologies to make California more drought resilient.
- CDAA 2014 Drought Fact Sheet and Frequently Asked Questions provided to Regions for reference and distribution.
- Cal OES Recovery continues to coordinate the Community Impacts Workgroup conference calls. Currently, the calls take place on alternating Wednesdays.
- Cal OES Recovery/Individual Assistance finalized an updated 2015 version of the drought brochure of programs and services for individuals, businesses, farmers, and ranchers. It has been put on the Governor's Drought webpage. State agencies may put the following link to the brochure on their webpage <http://ca.gov/drought/pdf/Drought-Assistance-Brochure-2015.pdf>
- Cal OES Regions (Inland, Coastal, Southern) collective OA drought call is facilitated by the SOC every Monday at 1100 hours.

CAL OES 2014 DROUGHT

Cal EOC Incident – 2014 Drought

Local Emergency Proclamations:

A total of 60 local Emergency Proclamations have been received to date from city, county, and tribal governments, as well as special districts:

- 27 Counties: Butte, El Dorado, Fresno, Glenn, Inyo, Humboldt, Kern, Kings, Lake, Madera, Mariposa, Merced, Modoc, Plumas, San Bernardino, San Joaquin, San Luis Obispo, Santa Barbara, Shasta, Siskiyou, Sonoma, Stanislaus, Sutter, Trinity, Tulare, Tuolumne, and Yuba.
- 12 Cities: City of Live Oak (Sutter County), City of Lodi (San Joaquin County), City of Manteca (San Joaquin County), City of Montague (Siskiyou County), City of Porterville (Tulare County), City of Portola (Plumas County), City of Ripon (San Joaquin County), City of San Juan Bautista (San Benito County), City of Santa Barbara (Santa Barbara County), City of Rancho Cucamonga (San Bernardino County) and City of West Sacramento (Yolo County) and City of Willits (Mendocino County).
- 9 Tribes: Cortina Indian Rancheria (Colusa County), Hoopa Valley Tribe (Humboldt County), Karuk Tribe (Siskiyou/Humboldt Counties), Kashia Band of Pomo Indians of the Stewarts Point Rancheria (Sonoma County), Picayune Rancheria of Chukchansi Indians (Madera County) Sherwood Valley Pomo Indian Tribe (Mendocino County), Tule River Indian Tribe (Tulare County), Yocha Dehe Wintun Nation (Yolo County), and Yurok Tribe (Humboldt County).
- 12 Special Districts: Carpinteria Valley Water District (Santa Barbara County), Goleta Water District (Santa Barbara County), Groveland Community Services District (Tuolumne County), Lake Don Pedro Community Services District (Mariposa Stanislaus County), Mariposa Public Utility District (Mariposa County), Meiners Oaks Water District (Ventura County), Montecito Water District (Santa Barbara County), Mountain House Community Service District (San Joaquin County), Nevada Irrigation District (Nevada County), Placer County Water Agency (Placer County), Tuolumne Utilities District (Tuolumne County), and Twain Harte Community Services District (Tuolumne County).

Mission:

We protect lives and property, build capabilities, and support our communities for a resilient California.

We achieve our mission by serving the public through effective collaboration in preparing for, protecting against, responding to, recovering from, and mitigating the impacts of all hazards and threats.
